

Does your Managed Service provider prevent you from being more responsive to market opportunity?

Our pragmatic approach to Managed Services helps you improve the way you use technology to address changing business needs

If your business depends on technology, you need robust IT Services that are reliable and cost efficient, whilst being adaptable to fast-paced change.

Unlike others, Ajilon Managed Services don't lock you in.

We strike a balance between certainty of cost and quality and the need for responsive, flexible services that do what you want and more.

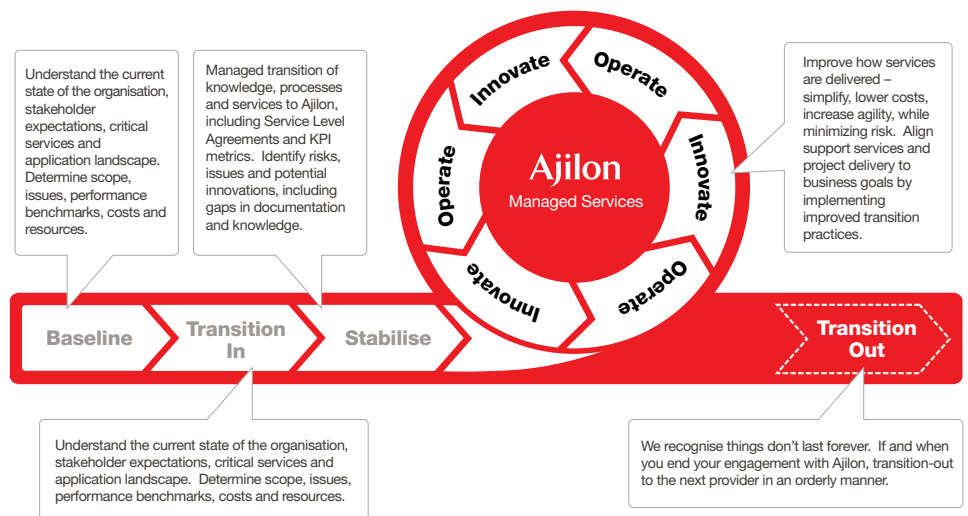

Our approach is to help you do it smarter; offering you certainty of cost and quality, whilst maintaining flexibility so you can adapt to evolving business needs.

Ask us how we can help you deliver smarter, more agile IT services

If these are some of your concerns, then talk to us...

- **You need a stable, cost efficient service:** Ajilon combines onsite resources, shared services and hosted cloud capabilities to manage risk and cost.
- **You want a partnership that is 'on the ball':** our professional team constantly looks for ways to innovate to help you maximise value and opportunities.
- **You value resilience and agility:** Ajilon helps you reduce complexity and cost, increasing your resilience and agility.
- **You need IT services that respond to change:** Ajilon delivers agile and innovative services that do not sacrifice quality.
- **You want certainty in resource planning:** Ajilon takes away the need for you to maintain large in-house capabilities.

Enhancing business outcomes in line with strategic objectives

With success across a diverse range of industries and organisations, we have an impeccable track record in the effective delivery of managed services.

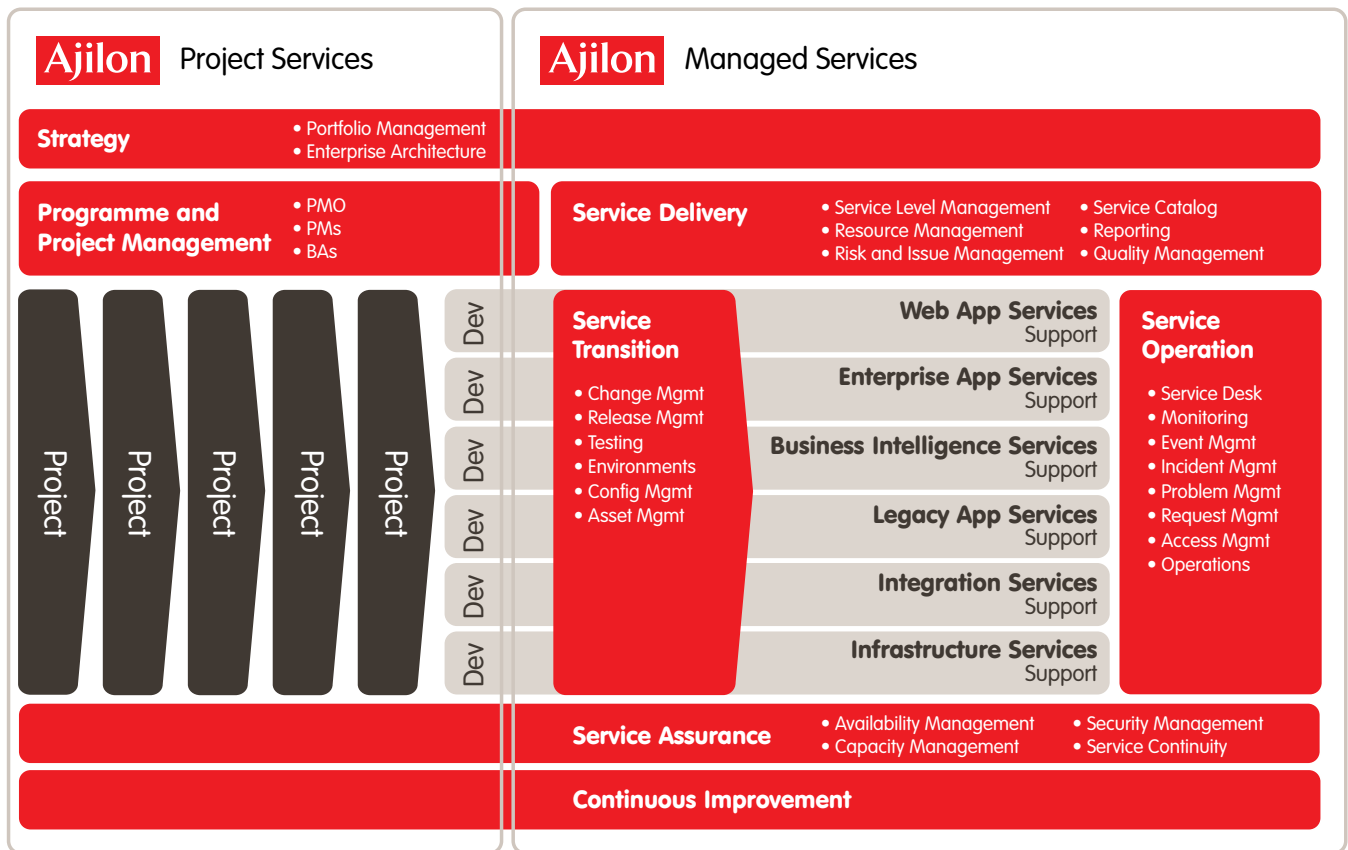

Some of the business outcomes and benefits we have delivered to our clients include:

- A 96% reduction in the cost of key management services by moving to open source platforms.
- A 97% improvement in processing time for critical law-enforcement people matching processes, through performance tuning.
- 100% compliance and delivery of agreed service levels.

Enhance your business outcomes with us: we guarantee to deliver on agreed service levels and you can realise benefits throughout your Ajilon experience.

Our unique approach and specialist expertise directly addresses your business needs

Our team has a wealth of specialty expertise in strategy, architecture, testing and project delivery; our methodology, using elements from ITIL^{®**}, PRINCE2^{®*}, ISTQB and Agile, assures you unsurpassed responsive and reliable managed services that deliver what is promised.
