

# Programme, Project and Portfolio Management

## From opportunity to outcomes

- Are you dealing with perpetual change in your organisation?
- Do you need to be more adaptive, flexible and responsive to remain competitive?
- Are your projects delivering the expected outcomes?

Ajilon understands the world of rapidly changing business demands and continuously evolving technologies. We recognise that each environment has its own unique requirements and challenges.

We work with you to deliver services from strategy formulation to portfolio selection, programme management and project delivery. We can help build your portfolio management practice and establish or re-energise your PMO (Programme, Project and Portfolio Office).

*Our practice is focused on generating business benefits and positive outcomes for you, not just deliverables and outputs.*

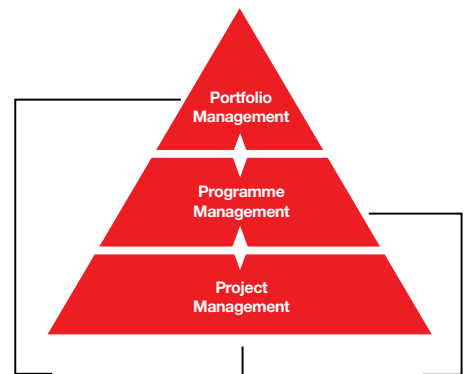

## Turn your strategic vision into reality... with Ajilon's Portfolio Management

- Have you ever cancelled a project that was on time and on budget?
- Good portfolio management is about doing the right things right.

Managing an enterprise or project portfolio to deliver the best value for your organisation can be tough. How do you select the right initiatives to spend your money and time on? How do you align the initiatives to your organisation's strategic plan, manage dependencies between projects and ensure benefits, information integrity and long-term maintainability of your enterprise portfolio?

Ajilon offers you a robust mechanism to move from strategy formulation to project and programme definition. Our expert Enterprise Analysts work with your Executive Team and Strategy and Planning divisions to create a portfolio selection model that answers your needs.

## Transform your business... with Ajilon's Programme Management

- **Have you run a large programme only to realise you didn't get the benefits you hoped you would?**

Our programme management approach offers an operating model that places people and change management at the heart of delivery success. We provide:

- Effective leadership and stakeholder engagement
- Focus on Benefits Realisation from the outset
- Disciplined planning and control
- Well defined Business Cases
- Rigorous risk management & issue resolution
- Excellent quality management

We help your organisation transition its processes, operations, technology and information systems during periods of intense change and, most importantly, we take your people along for the journey so benefits are realised

*We provide a firm bridge between the delivery teams and impacted business units, so that programme outcomes are realised and can be sustained.*

## Ensure delivery of positive business benefits... with Ajilon's Project Management

- **Have you been disappointed with your project outcomes?**
- **Does your organisation need to lift its project success rate?**

Projects are the way organisations change how things are done. Ajilon has an outstanding project delivery capability with an excellent track record across government and private enterprise.

Ajilon offers a pragmatic project management approach that addresses your specific business needs, including:

- PRINCE2®\*
- Critical Chain Project Management
- Agile Project Management
- A traditional phased approach

In addition to properly resourcing and managing your project, we ensure it has adequate user involvement, clear requirements, proper executive management support and realistic project milestones.

*We know that the best projects are outcomes and benefits driven; we work with your teams to drive returns.*

## Delivery assurance with our trained, experienced project directors

We continually invest in upgrading the skills of our consultants. Any Ajilon project manager who works with you will have world-class certification, will be equipped with Ajilon's proven project management toolset and supported by our practice experts.

With these capabilities and our Delivery Assurance, you know project risks and issues will be managed successfully and agreed project outcomes will be delivered.

**Let's get started. Ask us how we can make a difference to your organisation. Let Ajilon surprise you with a fresh new approach to tackling your challenges. Contact us so we can take the first step towards understanding your business.**

*We believe in skills provision so deeply that we've developed our own in-house PRINCE2 training capabilities. If you are looking to up-skill your project managers, we are the premier training organisation in Australia in this valuable methodology.*
